## **LAKE ERIE NATURE & SCIENCE CENTER LAUNCHES “DROP IN & DISCOVER”**

Bay Village, Ohio --- Lake Erie Nature & Science Center is launching a new program designed to give walk-in visitors an additional way to experience hands-on fun. *Drop in & Discover* kicks off with activities on Martin Luther King Day, January 21, from 10 a.m. to noon and 1 to 3 p.m. Registration is not required for *Drop In & Discover* activities, but there is a small fee to participate.

Center Education Director Darci Sanders says *Drop In & Discover* will add a new option to the Lake Erie Nature & Science Center experience. “This program will provide our walk-in guests with optional activities that will be available within a 2 to 3 hour window. It’s hands-on discovery and fun that should be easy to fit into a busy family’s schedule without much pre-planning.”

Sanders says morning projects and activities will be geared to preschoolers and their parents. On school holidays, additional afternoon offerings will appeal to school age kids, with parent supervision.

The Center already offers a large roster of classes and programs that require registration, plus the Schuele Planetarium’s star shows, Meet An Animal programs, a Discovery Corner and indoor and outdoor exhibits featuring more than 100 live animals.

With free admission, 7 days a week, Lake Erie Nature & Science Center attracts more than 90,000 walk-in visitors each year to its location at 28728 Wolf Road in Bay Village. To view the most current schedule of activities for Drop In and Discover, visit the Center’s website at [www.lensc.org](http://www.lensc.org) or call (440)- 871-2900.
