'GREEN' STUDENTS MAKE MUSIC AND MORE AT YEAR-END PERFORMANCE CONCERT, FASHION SHOW, RECEPTION AT LAKE ERIE NATURE & SCIENCE CENTER

Bay Village, OH -- After a whirlwind year of rehearsals, performances, twice weekly meetings and a national award, members of the Lee Burneson Middle School Environmental Club in Westlake will take center stage for a year-end public performance at Lake Erie Nature & Science Center in Bay Village. The energetic, family-friendly, "LBMS Environmental Extravaganza" will take place on Saturday, May 23 at 7 p.m.

The evening will feature students in grades 7 and 8, who have spent the entire school year writing, rehearsing and recording music, choreographing dance and creating short plays – all with a "green theme." The program also includes a mini fashion show featuring handmade accessories and clothing constructed from pop tabs and other recycled materials.

Students will also screen an inspiring, short video and share readings from creative student authors. The club's award-winning director, Daniel Grigson, will cap off the performances with his own captivating, live music.

Tickets are \$7 and include a reception with refreshments following the performances. You are encouraged to bring the whole family -- or at least those who will enjoy sitting through a lively, 1-hour and 30-minute performance -- to see what this amazing group of young people has accomplished! The club recently received national recognition for their efforts, winning a 2009 Sea World Environmental Excellence Award. Mr. Grigson and a group of students went to Florida on May 1 to accept the award, which came with a \$10,000 grant.

Lake Erie Nature & Science Center will accept walk-in or phone registration between 10 a.m. and 5 p.m. daily. Call 440-871-2900 for more information or to sign up. Seating is limited so reserve your space early! The Center is located at 28728 Wolf Road in Bay Village.
