RAPTORS COME IN ALL SIZES AT LAKE ERIE NATURE & SCIENCE CENTER *Free Program Teaches How to Spot the Small but Colorful Kestrel In the Suburban Wilds*

Bay Village, Ohio--- Ohio's most common falcon is often mistaken for a songbird because it's so small and colorful. Get an up-close look at the American Kestrel on August 2 at 3 p.m. as Lake Erie Nature & Science Center features this mighty little raptor at a free, family-friendly, *Meet An Animal* program.

With a live Kestrel perched on his glove, Lake Erie Nature & Science Center's Director of Wildlife, Dave Wolf, will explain how you can spot Kestrels in the wild ... even the "suburban wilds."

Lake Erie Nature & Science Center is located at 28728 Wolf Road in Bay Village. More than 100 other live animals are on display inside and out seven days a week from 10 a.m. to 5 p.m. Admission is free! Find more at www.lensc.org or call (440) 871-2900.
