GET TICKLED BY A GIANT MILLIPEDE AT LAKE ERIE NATURE & SCIENCE CENTER

Bay Village, Ohio--- Feel the sensation of a multitude of millipede feet tickling your skin at Lake Erie Nature & Science Center's next Meet An Animal program. The Giant African Black Millipede will be featured at the February 16 edition of the hands-on, family friendly, free program.

"There is always something fascinating about really big bugs and this sure is one of them," says Wildlife Director Dave Wolf. "These millipedes can grow up to 11 inches and be thicker than your thumb!"

During the 3 p.m. program, you'll learn where and how the Giant African Black Millipede lives and you'll have a chance to feel hundreds of tiny feet crawl across your hand. Lake Erie Nature & Science Center is located at 28728 Wolf Road in Bay Village. More than 100 other live animals are on display inside and out seven days a week from 10 a.m. to 5 p.m. Admission is free! Find more at www.lensc.org or call (440) 871-2900.
