

Nutty Squirrel's Adventure

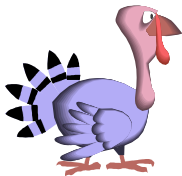

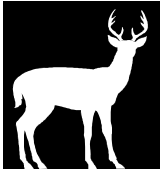

Nutty Squirrel needs your help!

To earn an acorn, Nutty needs to match-up **SEVEN** sets of animal tracks with the animal that makes them. Can you, and his animal friends at Lake Erie Nature & Science Center, help solve the footprint mystery? You can print this page and do this activity at home or come to Lake Erie Nature & Science Center where you'll find clues by the wildlife exhibits to help you identify the animal tracks. Bring your completed page to the front desk and receive a small prize!

DIRECTIONS: Draw a line from the animal to its tracks.
