THOSE LATE SUMMER VIEWS SPARKLE AT LAKE ERIE NATURE & SCIENCE CENTER

Bay Village, Ohio --- Plato said, "Astronomy compels the soul to look upwards and leads us from this world to another." During the month of September, there is plenty of other-worldly fun to be discovered inside the Lake Erie Nature & Science Center's Schuele Planetarium and outside under the stars on telescope viewing night.

The fading summer nights often bring some of the best star-gazing conditions. Planetarium Director, Jay Reynolds, says, "There should be some great evenings to come and see the late summer shapes!" If you've puzzled over why Venus is now a morning planet or wondered when you'll finally be able to see Mercury, these programs will give you the answers. There will also be deep blue Neptune to view!

You can take in "Those Late Summer Views" every Saturday during the month of September.

Those Late Summer Views

September 1*, 8, 15**, 22, 29

Come and see the late summer shapes!

**The 7 p.m. evening program on the 1st includes telescope viewing after the show, weather permitting.*

***No 7 p.m. show September 15 due to the Center's Survivor Africa benefit*

Fee: 2 p.m. - \$2/person

7 p.m. - \$3/person

Ongoing Schuele Planetarium Star Show Schedule:

Twinkle Tots!

Thursdays & Saturdays at 11 a.m.

Toddlers and their families get to see what's new in space, watch the lights dance, and see some magic. This program is fun for just about everyone in the family! *Door closes promptly at 11 a.m.*

Fee: \$1/person, including infants

Stellar Stars

Wednesdays at 11 a.m.

Saturdays at Noon

"Blast-off" to a new planet and constellation during this interactive show. Marvel at the night sky and enjoy the stars, lasers moving to music, and learn fun facts about the solar system. Great for kids 2 and up with an adult.

Fee: \$2/child

Backyard Astronomy

Saturdays at 1 p.m.

Explore the night sky from your very own backyard! Join us as we view autumn constellations and other celestial objects in the sky.

Fee: \$2/person

Tickets for planetarium programs are available at the front desk 30 minutes before the program begins on a first-come, first-served basis. With the exception of Twinkle Tots and Stellar Stars, programs may not be appropriate for very young children who are not able to sit through a 30-minute show. All shows include an overview of the night sky and news from various space agencies.
