Lake Erie Nature & Science Center

WILDLIFE GARDENS
EDUCATION AND RENOVATION PROJECT

Our Mission: The nonprofit Lake Erie Nature & Science Center educates and inspires each of us to understand, appreciate and take responsibility for our natural world.

501(c)(3) nonprofit organization
Tax ID #34-0845030

Phase 2

Timeline:	2025 to 2027 for planning and construction
Project cost:	$1,000,000
Funds raised to date:	Approximately $810,000

Objectives

- Mammal Exhibit
- Wildlife Quarantine Area
- Children's Garden

Mammal Exhibit

Named sponsorship available for a contribution of $100,000 – Sponsorship pending

The Mammal Exhibit will be the primary feature of Phase 2 of this Project and will be located adjacent to the Aviary. Offering visitors up-close views of native mammals such as fox, raccoon, opossum, or skunk the Mammal Exhibit expands on connections with species found in our local landscape. Many of these animals are former rehabilitation patients that cannot be released and have become residents of the Nature Center as animal ambassadors. Ginny the Opossum and Ellie the Skunk are often interpreted in our Wonders of Wildlife animal encounter and have become favorites among young children.

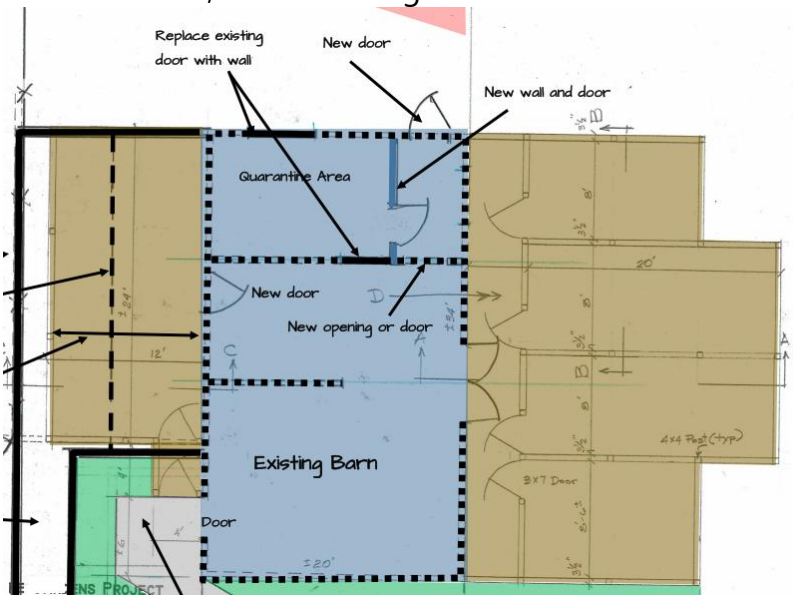
Wildlife Quarantine Area

Named sponsorship available for a contribution of $100,000 – Sponsorship pending

The Nature Center continues to build on its high standards of wildlife rehabilitation as demonstrated with the first phase of renovations. A Wildlife Quarantine Area will be created inside and adjacent to the wildlife barn to provide additional safeguards for the health of rehabilitation patients, personnel, resident animals, and the visiting public. The Quarantine Area will support current quarantine procedures for avian species such as screening new arrivals, monitoring patients, and other important protocols for wildlife care. The Nature Center is setting high standards of care and exceeding industry guidelines with these structural advancements while ensuring safe, high-quality treatment for ill and injured animals. This area will prepare our wildlife rehabilitation program for success in the future, amid evolving zoonotic diseases.



Children's Garden

Named sponsorship available for a contribution of $50,000

A Children's Garden will provide a natural area for hands-on exploration within the Wildlife Gardens. Designed for young learners and families, this feature will encourage visitors to make lasting connections with nature and build a lifelong passion for discovery.

Garden Benches

Naming opportunities available for a contribution of $10,000

Garden benches provide a place for rest in our outdoor areas and offer a named plaque placed on the bench. Your donation of $10,000 covers the cost of the bench and plaque, installation and maintenance for a 10-year period.

Naming opportunities offer ways to recognize and pay tribute to family and loved ones while providing meaningful financial support for this capital project. A gift agreement outlines details, duration, and terms with donor and the Nature Center.

Lake Erie Nature & Science Center is a 501c3 nonprofit organization tax identification #34-0845030. Contributions may be made by check, credit card, donor advised fund grant, IRA, or stock.
